PREFACE

CREATIVE DIRECTOR MR. RAJVEER SHARMA

I Rajveer Sharma take responsibility that all the contents displayed in this brochure are of the project created by DELECON® DESIGN COMPANY. Today we are celebrating Glorious 15 years of experience in the interiors industry & it makes us proud. Today we have successfully built + 250 homes & offices across India. Our quality, our mind, and our passion can be fully reflected in the projects done by us. A passion for unique and different interior art fuels our imaginations. This PREFACE minimizes the distance between you and us and expects that we will connect in business. This initiative motivates us to join hands with you in our quest to do something great. In the interior designing journey of the past 15 years, we have made people's lives better through our approach, our technology, and our experience. For us interior designing is everything and we do it wholeheartedly.

Let's share new hopes for you and us. The gift of happiness is greater than every moment.

“AN INTERIOR DESIGN RESEMBLES HUMAN LIFE & THE DESIRE OF SOUL.”

RESERVE THE BEST PLACE

Emotions are attached to our homes with their decorations and interior planning.

We start our work keeping all aspects such as significant planning, unique designs & quality controls in finishes. Home connects us to both our family and love. Every home has its value. That's why we design homes from the heart.

“ALWAYS **RESERVE**
THE BEST **PLACE** FOR
YOURSELF”

YOUR IDENTITY

Celebration and interior design are the same aspects in different forms. This celebration of interior design connects our family with us. That's why **HOME INTERIOR** designing should be taken as such a festival. Home keeps us connected with our relatives, friends, and dear ones.

YOUR EMOTIONS

We are emotionally very attached to our Homes. That's why we serve people with true heart and passion while doing interior design. By sharing information with people, we design beautiful homes for them and put them in their original forms. Our place in society is determined by our home only.

“HOME IS YOUR IDENTITY.”

Valuable Thought

Do home interior designing in such a way that will always keep you fresh, energetic, and happy. Share interior details with your family members and give a new look to your home. Amazing & incredible houses can be designed keeping all these things in mind. So always share the information about the things you need.

Wood & Stone Elements of Nature

Nature not only nourishes us, but it also inspires us to live. Nature itself creates and protects the structure of life. Made from the bark of beautiful trees the veneer gives your home a touch of nature. Wood is a living thing and when it comes to your house, your house comes alive. The beauty behind the various shades & the structure of the wood is truly amazing.

The earth has embraced countless interesting facts and we have known about it along with civilizations over time. Even the natural stones will also fascinate. They are to be found inside the earth and on the mountains. When elements of interior design are natural it energizes you all the time. Whether these are stones, veneers, water bodies, and any such natural elements. It always keeps you in touch with nature.

“THE TOUCH OF **NATURE** IMPARTS
A NEW **ENERGY** TO YOUR HOME.”

Relaxing Homes

In the true sense, rest is found only at home. The interior of your home can be customized in every aspect the way you want. Home is truly meant for our dear ones. The right and functional home makes your family feel both happy and comfortable. Understanding all these needs, we give a new dimension to your Home.

“ Home is the place where human beings live and express their desires. They remain Independent & Happy in **FUNCTIONAL HOMES.** ”

HAPPY HOMES

All the time we think about something & eventually, we do something. After work is over, we enjoy the evening with our family at home only.

“Providing a BEAUTIFUL HOME to our family is one of the biggest ACHIEVEMENTS of our life.” Our mind is full of love, feelings, and thoughts. It is a good thought to wish for a good home.

Doing the interior of your home is one of the parts of your success journey. The family love spirit is highly activated due to only our loved ones. When nature is added to our life, it nourishes us. This exactly works when a house is glowing by adding elements of interior design. Colours, furniture, and furnishings have their importance in human life. Wall with painting, wall panels with marble textures & furniture in a wooden style anything as per your choice but it meets your emotions. We feel relaxed once we see a home with artifacts, proper furniture planning & heart-touching furnishings. It soothes our nerves.

“THE HOME INTERIOR KEEPS US
HAPPY & INSPIRES OUR EMOTIONS”

GOOD LIFE

Every moment in life is relaxed when we live in a good house.
A good home interior makes our morning good, makes our afternoon good & makes our evening good.

“GOOD INTERIOR LEADS TO
A **GOOD** LIFE.”

Just like the light of the day is our energy, the moonlight of the night is our happiness, similarly, our home gives us both energy and happiness.

FREEDOM

Life's dreams are pleasant, some get fulfilled and some remain incomplete. It is the dream of people to live in a beautiful house with their family. We get the true experience of freedom only at our homes.

To make the experience of this freedom better, we should plan the interior of our house in the best possible way.

“FREEDOM IS THE
WORD WHICH
TEACHES US TO LIVE.”

FREEDOM

" The beautiful interior fascinates the mind."

This is the truth!

Interior design is related to key aspects of human life. With our interior skill & working efforts we make your home remarkable. The beauty of your home does not extend to only four walls and a few rooms. This is the truth! The grandeur of the house comes by the interior planning & its decoration. Today People like to live in nice homes and we are fortunate to make this fantasy come true.

"WE MAKE THE **DREAM**
OF A **BEAUTIFUL**
HOME COME TRUE."

MOTTO OF DELECON® KITCHENS

DELECON® KITCHENS is a unique kitchen company that delivers kitchens exclusively in all modular as well as customized forms. Our trained professionals & interior designers play their role very technically in making your kitchen details. We unleash the full potential of the kitchen. "Overall it's not only about designs it's about kitchen engineering. "We are India's first kitchen company planned under Architects & well-skilled Interior designers only to achieve high-end results in kitchen engineering. The kitchen is the focal point of your home. If the design and planning of the kitchen are good then the people who cook there feel happy. So let's discover all the fresh ideas in your beautiful kitchen.

**"KITCHEN IS VISIBLE BEAUTY
OF YOUR HOME."**

HOME DECORATION

When we build a house, we leave our memories with it.

Home decoration is very important. There are various design elements. What we have to use, where to use it, and how to use it can define interior design.

If the walls of the houses are of light colour and the furniture is of dark colour, then the curtain should be settled accordingly.

How is the planning of your house? **What** should be the furniture design? **What** should be the colour of the walls?

You can do all this very well with a designer, because if you want to get all these things done in the best possible way, then the alternative would be to work with a good designer.

“DECORATING HOMES IS A VERY WISE ACT.”

Owned houses and joint families are symbols of prosperity in India. No doubt India is a growing power and today people here live in their own houses with great pride. The people of India have a very deep connection with their home and their home decor. Interior design is a matter of pride among the people here.

Overall home furniture with its decoration, temple design, sofa, curtains, and bathroom designs are all important facts that people like to see in their homes. **“We do the planning and decoration of the houses according to the needs of the people and this is the hallmark of our success.”** To make an attractive home, we focus our attention on the right guidelines with careful methodology and complete dedication.

OFFICE INTERIOR

Interior design is an art & this can be reflected in our working space too. The planning of the office & its decoration is important because we as humans would love better interior space.

It increases the productivity of each person who works in such a gorgeous interior ambience. There are various design elements. What we have to use, where to use it, and how to use it can define the working ambience. Display wall panels in offices with perfect furniture planning will be a winning idea to operate a successful office.

“IF PEOPLE START **LIKING YOUR OFFICE**, THEN IT IS A **GOOD SIGN** FOR YOUR BUSINESS.”

GOOD VIBES FOR WORKING SPACE

If the things around us are organized, then our mind gets attached there, and we like that place very much. The interior of an office is very much stuck in your mind. That's why it has a very deep impact on the nature of your business and its growth.

The beautiful decor part, thoughtful furniture planning, the colour & all selected materials is making your working space real & luxurious.

“IF YOUR **OFFICE IS GOOD**
THEN **BUSINESS** WILL ALSO
BE **GOOD.**”

“THE DESIGN OF
YOUR **WORKSPACE**
IS A SYMBOL OF
YOUR **SUCCESSSES.**”

GLAD FOR OFFICE INTERIOR

The efficiency of our work is demonstrated by our office ambience & its team only, so the working performance of the office should be dynamic.

You will make the design of your office so beautiful that people show their willingness to work there gladly.
